Notice to Owners of Maine Central R. R. Bonds.

The holders of the Bonds of the Penobscot and Kennebec Railroad, due in August next, are hereby notified that the undersigned have been appointed by the Maine Central R. R. Company agents to receive payment of the principal and interest of said Bonds, and that the same will be paid at the Agency in Bangor, on and after the first day of August next.

INTEMPERANCE IN NEW YORK. For the three years from January, 1867, says the New York Evening Post, the late Metropolitan Excise law was in force in the city. Its immediate results were a marked diminution of arrests for drunkenness and disorder, a decrease of upwards of two thousand in the number of liquor shops, and an annual revenue of one million and a quarter of dollars from licenses. One of its most striking effects was seen in the proportion of Sunday arrests as compared with those of other days. Under previous laws arrests on Sunday largely exceeded by about 25 per cent. those on week days. While the Metropolitan Excise law was enforced the average number of arrests for drunkenness and disorder on Sundays was as 85 and 117 on Tuesdays, being a difference of 30 per cent. in favor of Sunday. THE FRENCH CAMPAIGN.

Diplomat French Troops Called For!

SPEECH OF KING WILLIAM.

CABLE NEWS.

London dispatches foreshadow the occupation of Belgium by England. Gen. Moltke is said to have stated in the Prussian Council of the Prussian army was never better prepared for war than at present. The French army, it is claimed, has five days start of the Prussians. Prince Frederick William will command the South German armies and his cousin Prince Frederick Charles will lead the troops of the North. Paris telegrams announce that the French have guarding the Spanish border from Carlist invasions, having made ready arrests, and that the best of feeling exists between the French and Spanish authorities along the line.

[illegible] PRESUMED DIFFERENCE BETWEEN FRANCE AND ENGLAND.

New York, July 10. The Tribune's London special this morning says that private letters from Paris represent the prospect of serious trouble between France and England. The French government is furious at the tone of the English papers in relation to the [illegible] elections, from Englishmen for arms.

Certain members of the House of Lords held a meeting yesterday to consider the propriety of holding a large gathering, to express sympathy with Prussia and Count Bismarck. Private property on the high seas will be exempt from seizure by His Majesty without regard to reciprocity.

The agents of the General Transatlantic Company in this city, announce that the steamers of the French line are not to stop running in consequence of the war.

Washington, July 10. Baron Gerolt has officially communicated to Secretary Fish a similar telegram to that sent to the Consul General at New York. The French Minister called upon Secretary Fish to-day, and verbally informed him that his government would also respect the treaty.

SPEECH OF KING WILLIAM.

Berlin, July 10. King William made a speech last evening, to a great crowd who came to congratulate him.

He said that he was not responsible for the war just broken out. He might personally be passive under the outrage, but Germany even from beyond the seas had spoken. Sacrifices were sure. Prussia had been spoiled by her rapid victories in two wars, and perhaps a worse fate awaited her now. However, he knew what to hope from God, the army and the people.

A French proclamation for the purpose of exciting the people to revolt, has been distributed in Hanover.

NO FIGHTING YET.

Paris, July 10—1:20 p. m. Not even a skirmish has yet occurred between the hostile forces.

Hesse Darmstadt withdrew her agent from Paris this morning.

The Emperor will not set out for the front until everything is ready for active operations.

Several Prussian agents here, suspected of plotting and distributing money, have been arrested.

The Marseillaise, Henri Rochefort's journal, appeared this morning for the first time in several weeks, and was promptly seized.

Prince Napoleon is expected here to-morrow, and will have a command.

Madrid, July 10. The Workingmen made a demonstration yesterday. They marched through the streets, bearing banners inscribed, "the people dying of hunger." In front of the ministry of the interior and other public departments, they halted and demanded employment. Their conduct was orderly and ended without disturbance.

Paris, July 10. Don Carlos, the famous Spanish agitator is here.

St. Petersburg, July 10. Advices from the agricultural districts of northern and central Russia represent the crops as looking well, and promise a yield above the average.

Paris, July 10. Baron Rothschild, who was drawn as a member of the Jury of the High Court, did not attend, and has been fined 5000 francs.

The public and private subscriptions of the various charitable projects incident to the war are very liberal. In all parts of the country, Duke de Montemart has given 100,000 francs to one of those funds. Many persons have agreed to pay certain sums daily during the continuance of the war, and others again pay double taxes.

Many manufacturers continue the wages of their employees who choose to enlist as soldiers.

A large number of the constituents of M. Thiers, who voted for him in the last election, demand his retirement from the Corps Legislatif, on the ground that he has not indorsed the patriotic sentiment of the country by his recent speech against the war.

Several deputies of the Corps Legislatif are seeking for commissions in the army. A. Dufresnois has applied for a commission in the Orleanist Corps.

The Journal Officiel to-day has a significant article on the attitude of Holland, with which it professes to be pleased, and continues as follows:

"But no one can ignore the ambitious designs of Prussia against the independence of Holland. Bismarck wished to make that generous and illustrious little nation submit as the Danish Duchies were forced to submit. He wished to enlarge Holland to the state of the North German Confederation, and under pretext of establishing closer commercial relations, tried to place Prussian Customs officers at Amsterdam. The patriotic emotion aroused in the Netherlands at the time of the Luxembourg affair will also be remembered, nor will it be forgotten that without the firm stand taken by France, then the Prussian policy would have had results fatal to the independence and friendship of the Netherlands."

The cabinet of the Hague is on its guard and will not fail to maintain the real interests of the country.

The same paper has the following on the relations of Switzerland to France:

We learn from several Swiss sources, and particularly from Neufchatel, that the military measures of the Federal Government are not directed against France, but are inspired by a friendly neutrality. Switzerland knows that she has nothing to fear from France, her natural ally and firm friend.

The measures taken by Switzerland to secure the respect of Prussia for her neutrality are in our favor, as by her geographical position she protects an important portion of our frontier. The friendly feelings of the Swiss people towards France is also confirmed out by the Journal, which says we learn from Spain that all notice how carefully the present cabinet Government and the Chambers have avoided any act or expression of unfriendliness toward that power. This results from the feelings of sympathy between the two nations.

Rome, July 18. The Council held a public session to-day. There were 600 Fathers present. The Schema de Ecclesia Christa was adopted 666 to 2, and was approved as a constitution of the Church by the Pope, who pronounced a short elocution.

Paris, July 10. The Emperor has sent 50,000 francs to the society in aid for the wounded.

London, July 10—5 p.m. Consols, 89; for both American securities, dull: U. S. 5-20s, '62, 81; '67, 81; U. S. 10-40's, 78; stocks dull: Erie, 15; Ill. Cent., 104; At. & G. W., 20.

London, July 10—5 p. M. The panic which commenced in the markets here and at Liverpool yesterday, continues to-day, and was increased by the rumor to which some credit is given, that there is an understanding between France and Austria.

Paris, July 10—evening. The Emperor held another Council of Ministers to-day.

Prince Napoleon has arrived and had a long interview with the Emperor. It is understood that a corps de armee will be immediately formed and placed under the command of the Prince."

A grand dinner was given by the Emperor at St. Cloud yesterday, after the council of war. The principal officers of the regiments of the line and of the Imperial Guard which are on the eve of leaving Paris were present. They testified in the most enthusiastic manner their devotion of the Emperor. The band played the Marseillaise.

The Corps Legislatif yesterday adopted the projects of the law submitted and the credits asked by the government, and to-day the Senate concurred in the action of the Corps Legislatif.

The Journals protest against the law for the regulation of the press in time of war.

There are rumors that Denmark is giving way to the influence of England.

Prussia has so far shown no signs of swerving from her attitude of neutrality.

It is reported that the Ambassadors of Baden, Saxony, Hesse, Bavaria, and Wirtemburg have been ordered to quit Berlin.

La Liberte says that the official declaration of war will not be communicated to the Chambers until an answer has been returned from Prussia, the Cabinet at Berlin having received notification of the declaration.

Brussels, July 10. France has communicated to the powers a notification that she has entered into reciprocal engagements with Belgium and Holland, insuring their neutrality. France is also in active negotiations with Russia, to obtain from her a formal promise of neutrality.

FROM WASHINGTON.

WASHINGTON, July 10.

The Cabinet session to-day, which was the last for two weeks, unless some extraordinary emergency should occur, was attended by all the members and was not extended beyond the usual hour.

The Postmaster General remained some time after the other members had left engaged in transacting business with the President. Only a conversational reference was made to the European complications. The government had no further dispatches concerning the situation than is contained in the cable dispatches to the press.

Minister Washburne telegraphed to Secretary Fish to-day that he had just returned to Paris. The Secretary telegraphed to him at the request of the North German government, asking the consent of the French government to permit our legation to extend to the subjects of the former the same degrees of protection in France as was extended to French subjects in Mexico by our legation in that republic, the request in the same coming from Baron Morrister, Minister of Foreign Affairs. It is regarded as somewhat significant that this request of North Germany was made on the same day of the same month (July 10) as the request of the French for our government in 1807.

The Secretary has not, contrary to report, telegraphed to our various legations to observe neutrality in the impending war, nor any instructions whatever.

Baron Frellinghuysen's appointment as Minister to England was not signed by the President until to-day. He will receive it to-morrow.

The dinner of the Secretary of State in compliment to the French Minister, will take place to-morrow evening and will be attended by not more than ten persons, including M. Paradol and Secretary and his son.

Very few of the foreign ministers are in Washington. Mr. Thornton will not be present owing to illness, nor will Baron Gerolt be one of the party. Senator Sumner, Representative Schenck, the Postmaster General, the Secretary of the Interior and two others will compose the party.

AFFAIRS IN NORTH CAROLINA.

RALEIGH, N. C., July 10.

The counsel for the citizens arrested in Alamance County by Kirk, who, by order of Gov. Holden, refuses to regard the writ of Habeas Corpus issued in their behalf, argued the matter before the Chief Justice to-day. The feeling is most intense and the people await with the deepest anxiety the decision of Chief Justice Graham. The county seat of Alamance county has been placed under martial law by Kirk, the Court House seized and the whole town strictly guarded. A military commission has been organized, consisting mainly of Kirk and his officers, to try the citizens now under arrest. John Kerr, S. P. Hill, Sheriff Griffith and other prominent citizens of Caswell county at Yanceyville were released yesterday by Kirk. The Congressional candidates for that district were speechifying in the Court House when Kirk surrounded it with soldiers and made the arrest.

OBSEQUIES.

SPRINGFIELD, Mass., July 10.

The funeral of Hon. George Ashmun was attended to-day by Chief Justice Chapman, Ex-Gov. Bullock, Congressman Dawes, Geo. T. Davis of Portland, Me., and other distinguished gentlemen who were the friends and political associates of the deceased. The services were conducted by the Rev. Dr. Burgess of the Episcopal Church.

CHARITABLE CONFLAGRATION.

SAN FRANCISCO, July 10.

The French and Prussian residents have held a meeting and subscribed funds to be remitted by their respective countries to the sufferers in the pending war.

Dayton, Nevada, was destroyed by fire last night.

NEW YORK ITEMS.

NEW YORK, July 10.

A mass meeting of Germans in favor of Prussia, will be held at Tompkin's Park to-morrow evening. William Steinway, the Piano forte manufacturer, will preside, and Senator Schurtz of Missouri, will speak.

It is reported that the Prussian Government has made proposals for Stevens' battery now completing at Hoboken, under the supervision of Gen. McClellan.

The Steamship Silesia of the Hamburg Packet Company, sailed this afternoon for Europe with Prussian troops. The Silesia carries 200 passengers including several Russian officers, also Capt. C. B. Graves, of Mass. She took 140 bags of mail matter.

The Independent this week speaks of the Prussian war as a war for a whim inspired by no better purposes than to prove the still lingering barbarity of modern civilization. The stately william who governs France looked war to prevent forty millions of Frenchmen from paying homage to the glorious William unless compelled, and to throw the garb of military prestige over the succession of his son, Napoleon. Better for France had the Prince Imperial never been born. When will Heaven rid the earth of the last lee age of a Bonaparte?

There were 71 cases of sun stroke to-day, 36 of which proved fatal.

At the 5th Avenue Hotel to-night gold closed at 112½. Speculation was very dull.

THE NEW ENGLAND FAIR.

MANCHESTER, N. H., July 10.

Dr. Loring the President, Col. Needham the Secretary, and Col. Riddle the Treasurer of the New England Agricultural Society, and other gentlemen interested in the association, met here to-day to perfect the arrangements for the coming Great New England Fair, which will be held at the riding park in this city the first week in September next.
